THE SUBCUTANEOUS ARSENOBENZENE

Dr. LEHNHOFF-WYLD'S
SULPHARSENOBENZENE
THE ORIGINAL FRENCH PRODUCT

Manufactured by the Laboratoire de Biochimie Medicale, Paris.

Approved for use under the V.D. Regulations, 1916.

**Specific in—SYPHILIS in all its stages
and GONORRHEAL COMPLICATIONS**

Some years ago a world-famous syphilologist stated that arsenobenzenes by the intramuscular route were therapeutically more active than equal doses given intravenously. To-day thousands of users of SULFARSENOL affirm that statement.

**THE SUBCUTANEOUS OR INTRAMUSCULAR INJECTIONS OF SULFARSENOL
IN FRESHLY DISTILLED WATER ARE PRACTICALLY PAINLESS.**

Sole British Agents:
